Public and International Relations

Documents that international patients must have with them:

1. Patient's passport for admission and identification
2. Also radiology reports, sonography, CT scan, MRI, previous tests to be presented to the physician to review the earlier situation and the process of treatment of the disease before the presence in Iran.

Special services for international patients

According to the decision of the Ministry of Health due to consideration of foreign patients separately and the allocation of special services to these patients, Ayatollah Mousavi Hospital has put the following measures on the agenda:

1. Allocation of a separate unit under the supervision of the executive management of the hospital
2. Formation of IPD unit
3. Appropriate physical space in the medical wards for admission of these patients
4. An expert responsible for checking in and out of these patients
